

INNOVATIVE Gateway Solutions

Running an on-line business can be a challenging task. Success in opening a web store-front requires many skills, not only web development and web design but also the ability to maintain the confidentiality and security of customer data while efficiently processing credit card payments. Innovative Gateway Solutions is your answer.

e-Commerce Made Simple

Innovative Gateway Solutions offers the on-line merchant a complete suite of payment solutions to assist you in accepting payments on-line. Our gateway products work seamlessly with our merchant account services, ensuring that sales are processed and deposited into your account.

Product Features

Payment Processing: Merchant account can be used to accept all payment types, including Visa, MasterCard, American Express, Diner's Club, and JCB.

Easy to Use and Integrate: Processing on-line transactions is easy! Use a Virtual Terminal to process transactions with your web browser, or automatically process payments from your web site. Integration is simple and easy with most shopping carts and e-commerce platforms.

Payment Protection: Our gateway reduces the likelihood that you will receive fraudulent credit card transactions. This includes basic fraud screening tools, such as address verification screening and CVV2, as well as advanced filtering solutions:

- High-risk customer filtering for suspect credit cards
- Area code/state/zip code cross checking
- Country blocking
- Unusual order filtering such as duplicate order monitoring

Transaction Reporting: Innovative Gateway includes pre-set and customized reporting for on-line merchants.

Award Winning Customer Service

Innovative Merchant Solutions is available 24 hours a day, 7 days a week, 365 days per year and is supported by LIVE operators. Our representatives will assist you in setting up the gateway, processing a transaction via the Virtual Terminal or your web-site, or developing on-line reports. Our staff is also available to support web developers with any integration to their web-sites. These representatives can also provide service for merchant accounts via Innovative Merchant Solutions.
